Laura:

That is OK with me.

Thanks  
Fran

Man you must be so beat.

I need just enough information that I can post publicly--  
**Ex. 5 - Deliberative**  
**Ex. 5 - Deliberative** y. I did make the page public already, but I can go back and edit. Additionally, I can give you editing rights so you can add documents or links for the public at any time if you'd like. Let me know.

I'm heading home in 10 and can take care of it when I get there.

Another thing--the USACE call was confusing to me in that **Ex. 5 - Deliberative**  
**Ex. 5 - Deliberative** --so I had our contact, MacMillan request that, and they invited us and the ESFs to be on their calls--I'd like to combine the two because it sounds like separately they'd be redundant. Would you be OK with me sending an email with the FEMA contacts to ACE, and an email with the ACE contacts to FEMA so they have each other's info? I wasn't sure if they were trying to keep it to EPA/USACE only--it didn't sound that way to me. It just sounded like a little miscommunication I'd like to nip in the bud, if my perception is right. Fran is that OK with you?

Laura

Give me a sense of how much detail you wish to include about the drinking water and I will provide more info.

Sorry I missed your earlier deadline, but I was on my way home, dead on my feet.

Guys—please take 5 to revise this wording for the intro of the webpage—I'd like to make it public ASAP to dispel potential miscommunication. I already told army corp. and FEMA about the webpage so I want to at least get the background up and running publicly while the polreps/sitreps will be at your discretion Dennis and Melissa. I'm keeping it general. Will be posted on [www.epaossc.org/CharlestonWVChemicalLeak](http://www.epaossc.org/CharlestonWVChemicalLeak)

Fred: I will give you full access to the site—please update with relevant FEMA links or Sit REPS, and give access to the next watch stander that relieves you to do the same. Thanks. For now Melissa agreed to serve in a situation unit role, she will keep watch standers up to date on happenings on the ground. They need to keep in touch with her.
